Notes :

- This is a tool to find out how your site fare on the major search engines in relation to certain keywords extracted from your site's meta tags as well as additional ones added to the query.
- You may try the search with or without ' www. ' in front of the domain name (url)
- Search is done only for the three most popular search engines
- Use comma separated keywords (eg. housing) key phrases (eg. real estate,housing,homes) to get multiple results in one request
- Results may vary depending on which country you are searching from and which server of the search engine you are accessing and the time of day you are using this tool
- This is only a tool for analysis and we are not responsible for any errors or discrepancies found on the reports

Thank you for using our tool.
